

To Whom It May Concern:

I benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides me the variety and quality of radio that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. It's in the best interest of the the public for the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I need and have paid for.

Sincerely,

Ed Haynor
